1987
SEPTEMBER
VOLUME 78
NUMBER 9

LIBRARY OF CONGRESS, WASHINGTON, D.C.

INTRODUCTION

The ***Monthly Checklist of State Publications*** *is a record of State documents issued during the last five years which have been received by the Library of Congress.*

Monographs are listed each month as they are received and are arranged by State and issuing agency. Included among them are annual publications and monographs in series. Periodicals are listed semiannually in the June and December issues, with the December list cumulative for the year.

Publications of associations of State officials and of regional organizations and library surveys, studies, manuals, and statistical reports appear in two sections at the end of the listing of monographs by State.

For each publication, the price and pertinent bibliographic information, such as changes in titles and in names of issuing bodies, are given when known. The Library of Congress card number is also shown at the end of each entry when available. The assignment of an L. C. card number to a monograph indicates that it has been selected for the permanent collections of the Library of Congress. Those monographic works not selected for the permanent collections of the Library are temporarily being retained in an experimental collection located in the Serial and Government Publications Division. This collection includes monographic titles listed in the current volume and the preceding two volumes.

A few categories of publications, such as college and university catalogs, loose-leaf additions, slip laws, and certain ephemeral material such as blank forms and publishers' announcements, are not included in the ***Checklist****. Listings of State university press publications are limited to those which by reason of their content or series title appear to be official publications of the university.*

The publications listed are ***not*** *distributed by the Library of Congress but may be obtained in most instances from the agencies issuing them.*

Beginning with the January 1987 edition, a subject index appears at the end of each monthly issue. A cumulative annual subject and issuing agency index to the ***Checklist*** *appears in the following year. A separate title page for the entire volume is provided with the index.*

The value of the ***Checklist*** *depends in large part on the cooperation extended by State agencies. They are requested to send to the Library of Congress copies of all their publications and issuances, including materials described above that are not listed. They are also requested to send the Library bibliographic information that does not appear on the publication itself and changes in titles of publications and names of issuing bodies.*

Montana	20	226			
Nebraska	59	458	Total	1,941	19,017*

*Includes all monographs and periodicals recorded. Fewer numbered entries appear in the checklist itself because entry numbers assigned for indexing purposes only and several items are listed collectively under single entries, for example, annual reports, maps, and pamphlets. In addition, entry numbers are not assigned to the periodicals. Therefore, entry numbers do not reflect actual totals.
